Re: Kay Mine Project

Dear Marc:

Thank you for having me out to visit your Kay Mine exploration site last month. I have very much enjoyed getting to know you and the AZ Metals team over the past few months.

As, the co-chair of the Arizona Legislature's Mining Caucus, as well as a state representative of a northern Arizona rural district just up the road from your project, I am delighted to see your project come to our state and thrilled at what might develop in the Black Canyon City area and beyond should your exploratory phase yield the results everyone is hoping to see.

I also appreciate the ethical and community sensitive approach your company brings to the project. And I have appreciated the way you have brought me and other public officials into the loop.

Keep doing things the way you have and I can't imagine anything but great success for the revival of the Kay Mine in this material rich area of our state and region. I wholly appreciate and endorse your efforts and will do whatever I can to support the ultimate success of the operation and all the benefits it will bring to rural Arizona.

I look forward to being in touch with you and your team as things continue to progress.

All the best,

State Representative Bob Thorpe
